

Monetta Core Growth Fund

Ticker: MYIFX
NO-LOAD

INVESTMENT OBJECTIVE:

The Monetta Core Growth Fund (formerly “Young Investor Fund”) seeks long-term capital growth. It pursues its objective by employing a “core-plus” investment approach.

INVESTMENT APPROACH

The Fund employs a “core-plus” investment approach; investing approximately 50% of its assets in Exchange-Traded Funds (ETF’s) and other funds that seek to track the S&P 500® Index. The balance of the Fund is directly invested in common stocks of all market capitalization ranges. However, the advisor will primarily seek to invest in large-cap companies that the Adviser considers to be high quality, well-known companies that produce products or provide services that are recognized by many investors.

INVESTMENT STRATEGY

The core (passive)-plus (active) investment approach seeks to minimize risk through broad market diversification while reducing dependence on stock selection and market timing decisions. The Fund incorporates the investment philosophy of the following well-known investors:

- **John Bogle:** “On average, an astonishing 90% of actively managed funds underperform their benchmark indexes over the preceding 15 years (2001-2016).” (4) Approximately 50% of the Fund’s portfolio will track the performance of the S&P 500 Index.
- **Warren Buffet:** “Best returns are achieved by companies that have been producing the same product or service for several years.” (5) The Monetta Core Growth Fund emphasizes high-quality growth companies with a competitive edge.
- **Gerald M. Loeb:** “It is more likely to pay off to buy companies at a seemingly high price...than to attempt to discover when a declining situation will turn around.” (6) The Fund’s basic investment strategy is to buy high and sell higher.
